PROFESSIONAL SUMMARY

Software Developer with a strong foundation in **HTML5**, **CSS3**, and **JavaScript (ES6+)**, currently expanding into Full-Stack development (**React**, **Next.js**, **Node.js**, **Laravel**). Hands-on experience in AI innovation, having successfully built and deployed a live AI-powered application (ismi.ai). Ability to seamlessly transition into any technology or industry vertical whether it's **Fintech**, **E-commerce**, or **Healthcare** and build robust solutions. Possesses strong cross-functional **communication skills**, with a proven ability to collaborate seamlessly with **PM & Team Leads** to solve problems, optimize project delivery, and drive business goals and growth.

TECHNICAL SKILLS

- Core Foundations:** **HTML5** (Semantic HTML, Accessibility Basics), **CSS3** (**Flexbox**, **CSS Grid**, Responsive Design, Animations), **JavaScript** (ES6+, DOM), **React**, **Next.js**, **Git**, **GitHub**.
- Agile & Collaboration:** Agile Development, Scrum Ceremonies, Product Management Alignment (PM Collaboration), Cross-Functional Teamwork.
- Professional Strengths:** Analytical Problem-Solving, High Adaptability.

PROJECTS

Live AI Chatbot Assistant (ismi.ai) | *Next.js, Tailwind CSS, Framer Motion, Gemini API*

- Deployed a live AI assistant featuring **real-time voice conversation**, streaming responses, and a 3D audio-reactive visual interface.
- Configured **environment variables**, **API integration** with fallback handling, and real-time web search functionality.
- Debugged real-world production issues, including provider failures, mobile responsiveness, and UI state bugs.
- Managed version control and deployment using **Git**, **GitHub**, and **Vercel**.

Live: ismi-ai.vercel.app

Ehsan Clinic - Full-Stack Healthcare Platform | *Next.js, Node.js, Laravel, Video Consultation, AI Integration*

- Developing a modern, **responsive clinic website** featuring doctor and clinic profiles, services, facilities, and contact details.
- Building online **appointment booking** and **video consultation** with automated Google Meet integration.
- Creating dedicated Doctor and Patient **Dashboards** with **appointment management**, consultation history, and real-time doctor-patient chat.
- Integrating an **AI Assistant** to handle basic patient queries, **organize doctor instructions**, and assist with appointment booking.
- Adding an **emergency contact** option, a medical camp showcase section, and smooth, performance friendly animations.

Status: In development **will be published** with dedicated domain & hosting upon completion.

Restaurant Website | HTML5, CSS3, Flexbox, Media Queries

- Engineered a 4-page responsive restaurant website using **semantic HTML5** and **modular CSS**, with a consistent **sticky navigation** bar across all pages.
- Implemented hover effects, transitions, and a fully **responsive layout** tested across desktop, tablet, and mobile.
