SUMMARY

Self-taught Frontend Developer with a strong foundation in HTML5, CSS3, and modern JavaScript (ES6+, DOM, asynchronous programming), currently learning React. Deployed a live AI-powered web application (Ismi.ai) built with Next.js, involving API integration, environment configuration, and real deployment workflows using Git, GitHub, and Vercel. Builds consistently, documents progress publicly, and is currently completing higher secondary education.

SKILLS

Core Foundations: HTML5 (Semantic HTML, Accessibility Basics), CSS3 (Flexbox, CSS Grid, Responsive Design, Animations), JavaScript (ES6+, DOM, Async/Await, Fetch API)

Currently Learning: React & Next.js (Components, JSX, Hooks) — hands-on deployment experience via the Ismi.ai project

Developer Tools: Git, GitHub, VS Code, Vercel

Practices & Concepts: API Integration, Responsive Design, Multi-Page Architecture, Reusable UI Components, Deployment Workflows

PROJECTS

Ismi.ai — Live AI Chatbot Assistant | Next.js, Tailwind CSS, Framer Motion, Gemini API

- Deployed a live AI assistant featuring **real-time voice conversation**, streaming responses, and a 3D audio-reactive visual interface.
- Configured **environment variables**, **API integration with fallback handling**, and real-time web search functionality.
- Debugged real-world production issues including provider failures, mobile responsiveness, and UI state bugs.
- Managed version control and deployment using **Git, GitHub, and Vercel**.

Live: ismil-ai.vercel.app

Restaurant Website — Multi-Page Responsive Website | HTML5, CSS3, Flexbox, Media Queries

- Engineered a 4-page responsive restaurant website using **semantic HTML5** and modular CSS, with a consistent **sticky navigation bar** across all pages.
- Implemented hover effects, transitions, and a fully **responsive layout** tested across desktop, tablet, and mobile.

Personal Portfolio Website — Multi-Page Developer Portfolio | HTML5, CSS3, Flexbox, CSS Grid

- Designed a 5-page portfolio with a **sticky navbar** and a responsive project grid using **CSS Grid auto-fit and minmax()**.
- Deployed using **GitHub Pages**, connected to version-controlled project repositories.

Live: muhammadismailliaquat.github.io/personal-portfolio | GitHub: github.com/muhammadismailliaquat/personal-portfolio

Ehsan Clinic — Full-Stack Healthcare Platform (In Progress) | Client Project, Full-Stack Web App, Video Consultation, AI Integration

- Developing a modern, responsive clinic website featuring **doctor and clinic profiles**, services, facilities, and contact/location details.
- Building **online appointment booking** and **video consultation** with automated Google Meet integration.
- Creating dedicated **Doctor and Patient Dashboards** with appointment management, consultation history, and real-time doctor-patient chat.
- Integrating an **AI Assistant** to handle basic patient queries, organize doctor instructions, and assist with appointment booking.
- Adding an emergency contact option, a medical camp showcase section, and smooth, performance-friendly animations.

Status: In development — will be published with dedicated domain & hosting upon completion, In Sha Allah.

Additional Projects: Blog Landing Page (CSS Position), GitHub Profile Analyzer (Fetch API), Registration Form, Personal Profile Card, Tech Conference Landing Page — full list on GitHub.

EDUCATION

Intermediate in Computer Science (ICS) — Government Higher Secondary School No. 1, Murree Road, Rawalpindi

Result Expected: September 23, 2026
